ABOUT ME

I am a dedicated Software Engineer with a strong curiosity for technology and a commitment to excellence. I thrive on learning new things and consistently putting in my best effort as a team player to achieve a common goal. I am eager to apply my technical expertise and problem-solving abilities as a Software Engineer to contribute to innovative projects.

EDUCATION

University of Colombo School of Computing 2022 - 2025
Bachelor of Science in Computer Science
CGPA: 2.96

President's College, Kotte. 2017-2021
G.C.E Advanced Level Examination(Physical Science)
Combined Maths - A, Physics - B, Chemistry - B
Z-Score: 1.61
Island rank: 2459

WORK EXPERIENCE

Altria Consulting 2025 NOVEMBER - PRESENT
ERP Development Internship

- Acquired hands-on experience in SAP ABAP development using both procedural and Object-Oriented (OOP) paradigms.
- Gained practical understanding of the WRICEF framework (Workflow, Reports, Interfaces, Conversions, Enhancements, Forms) within SAP environments.
- Developed custom reports and SmartForms based on functional specifications and business requirements.
- Gained exposure to SAP Fiori and SAPUI5 for developing modern, user-friendly web applications.
- Developed foundational knowledge in Core Data Services (CDS) and ABAP Managed Database Procedures (AMDP) for optimized data modeling and performance.
- Acquired practical understanding of OData services for building and integrating SAP backend with frontend applications.
- Assisted in designing and implementing ABAP solutions aligned with client requirements and SAP best practices.

LANGUAGES

- Sinhala
- English

SOFT SKILLS

- Teamwork
- Positive Attitude
- Desire To Learn
- Communication Skills
- Time Management

SYNAPSE Solutions (Pvt) Ltd 2024 DECEMBER - JUNE

Software Engineer Internship

- Contributed to a telecommunication project by designing and implementing a robust call center solution using Asterisk PBX for efficient telephony operations and OpenVPN to ensure secure remote connectivity.
- Built a scalable backend using Java, Maven, and Hibernate using Asterisk REST interface, ensuring seamless integration with the telephony system.
- Developed Bash scripts to automate user provisioning and monitor user status in real-time for Asterisk and OpenVPN.
- Developed a web-based internet calling application using Asterisk WebRTC, SIP.js, and JavaScript, enabling users to make real-time voice calls over the internet through their browsers.
- Technical Stack: Java, JavaScript, Hibernate, MySQL, Asterisk, OpenVPN, Maven

PROJECT EXPERIENCE

Recruit Ease 2024 JUNE - December

- Recruitment and application tracking platform.
- Architecture: Microservices
- Developed user-centered frontend interfaces for candidates (system actors) to manage resumes and for moderators (system actors) to handle ticketing processes. On the backend, created a comprehensive resume management service to manage all resume-related tasks, including uploading, creating, deleting, and shortlisting resumes.
- Technical Stack: Java, Spring Boot, Next.js, Tailwind CSS, NextUI, MySQL

ENTO Git 2023 JULY - 2024 APRIL

- Musical Event Planning and Promoting Platform.
- Architecture: MVC
- Developed user-centered frontend interfaces for clients (system actors), including event ticket pages, advertisement pages, and reservation pages. On the backend, created CRUD operations for clients, covering actions such as buying tickets, publishing advertisements, and making reservations.
- Technical Stack: HTML, CSS, JS, PHP, MYSQL

ACHIEVEMENTS

- **Ranked 1st in Divisional Mathematical Quiz Competition** 2013
  Sri Jayawardenepura Educational Zone Divisional-Level Mathematical Quiz Competition.
- **Ranked 1st in Science Day Quiz** 2018
  Ananda Shastralaya Kotte Annual Science Day Competition.
- **Under 13/15 Divisional Cricket Tournaments** 2010-2012
  School level cricketer in under 13 and 15 tournaments
  Sri Rahula Maha Vidyalaya, Mulleriyawa new town.
